

STATE OPENING OF PARLIAMENT

Speech From the Throne Read
by King Edward to Peers
and Commons.

HOUSE OF LORDS CROWDED

NEWEST AMERICAN PEERESS IN
THE GAY THRONE.

London, Feb. 16.—A greater crowd than usual gathered at Westminster today for the state opening of parliament by King Edward, who was accompanied by Queen Alexandra, the Prince and Princess of Wales and other members of the royal family. A day of bright sunshine and the fact that the ceremony was the first public appearance of the king and queen since their return from Berlin were largely responsible for the outpouring of the people who lined the route to Buckingham palace and gave the sovereigns an enthusiastic greeting as they passed in procession, with an escort of the guards, to the house of parliament.

Another and a greater crowd had assembled in the immediate vicinity of St. Stephens. These people were curious to see what would be the outcome of the threats made by the unemployed and the woman suffragists to indulge in demonstrations. The police at this point were out in force and ready to deal with any disturbance.

Absentees Were Few.

Urgent whips had been issued by the leaders of the house, and there were only a few absentees.

The house of lords, when their majesties arrived, was filled with peers and peeresses, members of the house of commons, diplomats and other representatives of the official and social life of London. Among the latter was the newest American peeress, the Countess of Granard, who was Miss Beatrice Mills of New York.

Ambassador Reid and J. Ridgely Carter, secretary of the American embassy, were in the diplomatic section.

In the royal gallery were Rear Admiral Charles H. Stockton and Mrs. Stockton, Professor George Grafton Wilson and Mrs. Wilson, the Hon. Charles H. Gibbons, the naval attaché here, Mrs. Gibbons, Admiral Stockton, Professor Wilson and Commander Gibbons, present in their capacity as delegates to the International Naval conference now in session in London. The majority of attendance was expected to their wives.

Speech From the Throne.

King Edward's speech from the throne contained no surprise and, as had been anticipated, the projected legislation forecast by his majesty was largely social in character. The king opened with a graceful allusion to his recent visit to Berlin.

"I was much impressed and gratified at the warmth of the reception given to the queen and myself by all classes of the community," he said. "It afforded me great pleasure to meet the emperor of Germany and the empress, and I feel confident that the expressions of cordial welcome with which we were greeted will tend to strengthen those amicable feelings between the two countries that are essential to their mutual welfare and the maintenance of peace."

He immediately made references to the continued friendliness of the foreign relations of Great Britain, the king spoke of the waterways and fisheries agreements with America.

"Satisfactory progress has been made," he said, "in the negotiations on outstanding questions with the United States. A treaty to regulate the use of waterways adjacent to the New England coast between Canada and the United States has been arranged, and this question, being of special national interest, the advice of the Dominion government has been sought and followed throughout."

Arbitration Agreed Upon.

"My ambassador at Washington has negotiated, also with the co-operation of the Canadian and the New Zealand ministers of justice, an agreement for reference to arbitration of the North American fisheries dispute. This agreement, which is a final and friendly settlement of matters which have long undergone discussion between this country and the United States."

After mentioning the continued anxiety concerning the situation in Persia and the "imperative demand" for the introduction of representative institutions in that country, the king said:

"I am happy to think that there is now an improved prospect for a solution of the difficulties which have arisen in the Balkans, and it is my earnest hope that a settlement may be arrived at by all states whose interests are concerned."

A Generous Gift

Professor Munyon has just issued a most beautiful, useful and complete manual. It contains not only all the scientific information concerning the moon's phases, in all the latitudes, but has illustrated articles on how to read character by phrenology, palmistry and birth month. It also tells all about card reading, birth stones and their meaning, and gives the interpretation of dreams. It teaches a beautiful system of giving weights and measures and antidotes for poison. In fact, it is a Magazine Almanac, that not only gives valuable information, but will afford much amusement for every member of the family, especially for parties and evening entertainments. Farmers and people in the rural districts will find this Almanac almost invaluable.

It will be sent to anyone absolutely free on application to the Munyon Remedy Company, Philadelphia, Pa.
